Take-Off Point Solar Power Installation

Need

The Take-Off Point Recreation Site, located at the south end of Lake Havasu in Arizona, provides day use picnicking opportunities and a boat ramp for day and night time access to Lake Havasu. Take-Off Point is managed by the Bureau of Land Management's (BLM) Lake Havasu Field Office. The Solar Power Installation project will provide solar power systems for lighting two comfort stations and a parking area at the site.

The project's initial construction schedule estimate begins June 2010 and ends August 2010. Though specific areas will be restricted while under construction, the boat ramp and picnic areas will remain accessible throughout the project.

Recovery Act Funding

This BLM-Arizona American Recovery and Reinvestment Act (ARRA) contract was awarded to Airborne Veterans on March 30, 2010, for \$64,000.

Benefits

The project promotes use of a renewable energy source at a federal recreation site and addresses safety for night time use.

More Information

For more information about this BLM-Arizona ARRA project, contact Linda Johnson, at 602-417-9576 or linda_johnson@blm.gov.
